

March Raceway – Raised Issues Action Form - 001

Date – 14th Jan 2022

Issue – Number of 1300 Stock cars on the track at the same time, with various levels of abilities racing.

Request / question – Can heats be split up to reduce excessive damage?

Other possible related issues – Other formulas of similar set ups F2, Mini, Hotrods that may be called into question

Facts

This is a full contact racing formula and isn't about being the fastest, but about being skilful in how you avoid the hits.

BRCA states that most clubs run heats with up to 8 to 9 cars

We know SMF, our closest club splits the group up and they have a similar size track

Clubs can decide on the basis of how they are run

Unknown Facts

What other clubs do with a similar issue?

Options/Proposals

Up to 9 cars - All to race in one heat

After 9 cars, it's subject to numbers attending

Between 9 and 11

1. Committee to decide on the night, subject to other formulas/time constraints
If no constraints
2. Vote put to attending races, choose to race as one or split

12 and over

1. Committee to decide on the night subject to other formulas/time constraints
If no constraints
2. Split heats – Default
Or
3. Vote put to attending races, choose to race as one or split

1st Stage - Proposal agreed by committee ~~or rejected~~

2nd stage - Proposal put forward to Members who are signed up with Club (Majority vote needed to approve proposal)

3rd Stage – Proposal agreed or Declined

Agreed Tick

Declined Tick
